

## **4 in 1 Placemat**

1. Cut 4 14"x17" rectangles (or placemat size plus 1/2" seam allowance).
2. Take 2 rectangles right sides together and mark 2" from each corner.
3. Place something round between the marks and cut off the corners.
4. Mark the top center and bottom center and sew one side between the marks.
5. Repeat with the other 2 rectangles.
6. Put the 2 pieces together and continue sewing sides from mark to mark leaving an opening for turning. Do not sew past the marks.
7. Turn right sides out and secure the opening.
8. Top stitch from mark to mark. (You will only be sewing through 2 layers at any time)
